Postage and freight

Postage and freight charges reflect what the warehouse we use charges us. They have excellent contracts with Australia Post and several couriers. Their costs include a fixed cost regardless of weight, plus a weight charge, so as the cost per unit decreases and the order size increases.

* If you are in the metropolitan area of one of our capital cities we recommend that you do not order 15. Our massagers come in cartons of 12, so an order of 15 needs two parcels. With Auspost those extra three massagers means a second postage charge. Auspost's charges for larger orders to regional areas are not competitive so we use couriers. They do not charge extra for multiple packages so ordering 15 is fine.

Usage guides

We include extra copies of our 16 page usage guides with each order. These can be used as instructions, patient education or and a promotional brochure. If you need extra all you need to do is ask.\
